ABOUT

I am a self-motivated and creative **Web Designer & Developer** with a keen eye for detail and a passion for building responsive, user-friendly websites. I enjoy turning design ideas into real-world digital experiences using modern front-end technologies like HTML, CSS, JavaScript, and React. Always eager to learn, I strive to grow my skills through hands-on projects and stay updated with the latest web trends and tools.

PROJECTS

Portfolio:

Website Designed and developed a responsive personal portfolio using HTML, CSS, and JavaScript.

Coffee Shop Website:

Developed a modern and responsive website for a coffee shop with menu, gallery, and contact form features.

Recipe Portfolio:

Created a personal recipe portfolio showcasing various dishes with ingredients, steps, and images using HTML/CSS and JavaScript.

Food App:

UI (Prototype) Designed a mobile-friendly food delivery app UI using Figma, focusing on clean layout, easy navigation, and user experience.

SKILLS

Creative UI thinking
Detail-oriented coding
Fast learner in frameworks
